

Victor Pena

christian70@example.com | (294)953-1473/79963 | Hunterborough | linkedin.com/in/victor-pena

PROFESSIONAL PROFILE

Product/Design graduate with 2 years of hands-on experience, most recently at Snowflake. Comfortable with Figma and SQL, and keen to work somewhere with strong code review culture.

QUALIFICATIONS

Bachelor, Computer Science

Riverside State University | 2020 – 2023

2.1 Honours

Relevant coursework: Distributed Systems, Compilers, Algorithms, Operating Systems

PROFESSIONAL EXPERIENCE

Technical Product Manager, Snowflake

Sep-2024 – Present | Melbourne (On site)

- Facilitated usability testing that surfaced 10 critical friction points before launch.
- Prototyped 10 concepts in Figma and killed two early on evidence rather than opinion.
- Partnered with data to define activation and retention definitions the whole company now uses.
- Negotiated scope with engineering and legal to ship a compliance deadline on time.

CORE COMPETENCIES

Skill	Experience
Figma	1 year
SQL	1 year
Excel	2 yrs
Sketch	2 yrs
CVCD	1 year
TensorFlow	2 yrs

SELECTED PROJECTS

Charity challenge

Built a TensorFlow assistant for a local charity to answer volunteer questions; retired it once they moved to a supported platform.

Technical blog

Writing my SQL experiments and failures, roughly 1k readers a month.

Commute optimizer

Pulls transit APIs and suggests departure times, built on CVCD.

CERTIFICATIONS

HashiCorp Certified: Terraform Associate — HashiCorp, 2024

PUBLICATIONS

"Scheduling strategies for distributed task queues" - accepted at a peer-reviewed workshop, 2025.

"Cache coherence under bursty workloads" - accepted at a peer-reviewed workshop, 2023.

LANGUAGE SKILLS

English – Bilingual

Turkish – Fluent

HOBBIES & INTERESTS

Competitive pub quizzes, Urban dutching

Michelle Martinez

christian70@example.org | 530-573-0337 | Navarromouth | linkedin.com/in/michelle-martinez

Qualifications

High School

Schlesinger High School | 2019 — 2022

Career History

Meridian Software — Junior Product Designer

2023-11 — Present | East Jamestown

- Ran quarterly roadmap reviews with executive stakeholders and published the trade-offs openly.
- Facilitated usability testing that surfaced 2 critical friction points before launch.
- Defined north-star metrics and instrumented them across 20 delivery squads.
- Partnered with data to define activation and retention definitions the whole company now uses.

Key Skills

Sketch, Git, SQL, React, Power BI, Databricks, Rust, Snowflake

Open Source

Snowflake utility library

Open-source helper library for Snowflake, ~300 GitHub stars. Wrote the docs and handled issue triage.

Match-day predictor

Small model to Rate predicting league results. Beats the naive baseline, still loses to the bookmakers.

Conference talk

Spoke on Snowflake in production at a regional meetup, ~40 attendees.

Certifications

ISTQB Certified Tester - Foundation Level — ISTQB, 2020

HashiCorp Certified: Terraform Associate — HashiCorp, 2020

Professional Data Engineer — Google Cloud, 2017

Selected Publications

"Cache coherence under bursty workloads" - technical report, 2023. Cited internally as the basis for the current design.

"Scheduling strategies for distributed task queues" - co-authored conference paper, 2024.

Volunteer Experience

STEM ambassador running school workshops twice a term.

christian70@example.org | 10-1610-0001 • New Jamesville

ABOUT ME

Technical Product Manager with 7 years in Product Design, focused on Jira and Figma. Comfortable owning a feature from discovery through to production support.

EMPLOYMENT HISTORY

Foxglove Media — Technical Product Manager

2018–2026

- Introduced accessibility standards to the design process, taking 4 flows to WCAG AA.
- Shipped a design system in Figma adopted across 10 product surfaces.
- Prototyped 30 concepts in React and killed two early on evidence rather than opinion.

EDUCATION AND TRAINING

Bachelor, Computer Science

Cedar Hillier University | 2014–2017

Graduated with Distinction

Relevant coursework: Algorithms, Databases, Computer Networks, Distributed Systems

TECHNOLOGIES

Jira

Figma

React

Tableau

Sketch

Jenny Hansen

penelope@example.com • +1-520-964-3611/03712

Education and Training

Master, Business Administration

Purdue University | 2023 – 2024

Thesis: "Organisational change during platform migration"

Relevant coursework: Operations Management, Marketing Analytics, Corporate Finance, Strategic Management

Bachelor, Business Administration

Fairview Institute of Technology | 2020 – 2023

Experience

Infrastructure Engineer, Ironwood Labs

Jan-25 – Present

- Improved cluster utilisation by 55% through right-sizing and Datadog autoscaling policies.
- Ran the on-call rotation for 15 production services, maintaining 99.9% availability.
- Designed the multi-region failover strategy and led the game-day exercises that proved it.
- Hardened Datadog environments ahead of SOC 2, closing 12 critical findings.

Key Skills

Kafka | Kafka | Datslog | Spark

Selected Projects

Home energy dashboard

Collects meter readings and renders them with Kafka. Mostly an excuse to learn time-series storage properly.

Conference talk

Spoke on Kafka in production at a regional meetup, ~50 attendees.

Recipe search engine

Full-text search over a scraped recipe corpus using Spark; learned more about ranking than about cooking.

Julie Williams

mcmillandennis@example.org | 682-844-9353 | Rebekcatoon | linkedin.com/in/julie-williams

CAREER OBJECTIVE

14 years in Data Analysis, most of it spent on systems other teams depend on. Comfortable leading technical decisions, pushing back on scope when it matters, and carrying a pager for what I build. Primary tools: BigQuery and Airflow.

CAREER HISTORY

Senior Business Intelligence Analyst, Cobalt Systems

Oct 2020 – Jun 2026 | Port Moreside (Remote)

- Automated monthly reporting with Airflow, saving 12 analyst-hours per cycle.
- Trained 2 non-technical colleagues to self-serve, cutting ad-hoc request volume by 40%.
- Defined and documented 15 core business metrics in the semantic layer, ending duplicate definitions.

Data Analyst, Cloudflare

Aug 2014 – Sep 2020 | South David

- Consolidated 30 legacy reports into 3 maintained dashboards.
- Modelled pricing scenarios in Airflow, supporting a 50% margin improvement.

Data Engineer

Summit Digital | Jul 2013 – Jul 2014 | Michaelton

- Built data quality tests in dbt that catch upstream breakages before stakeholders see them.

Business Intelligence Analyst, NVIDIA

Aug 2011 – Feb 2013 | Jassartbury (Remote) (UK)

- Ran cohort analysis that reframed how the business measures activation.

ACADEMIC HISTORY

Bachelor, Business Administration

Sandalewood University | 2011

Magna Cum Laude

CORE COMPETENCIES

BigQuery (8 years), Airflow (13 years), Redshift (4 years), Spark (6 years), SQL (5 years), NumPy (5 years), Power BI (7 years), Pandas (10 years), dbt (1 year), Bash (2 years), Scala (9 years), Postman (1 year)

NOTABLE PROJECTS

Home energy dashboard

Collects meter readings and renders them with Pandas. Mostly an excuse to learn time-series storage properly.

Recipe search engine

Full-text search over a scraped recipe corpus using Scala; learned more about ranking than about cooking.

PERSONAL INFORMATION	Nathan Avery navgdnt@example.net 824-684-2084 North John linkedin.com/in/nathan-avery
PROFILE	Senior Platform Engineer with 16 years in Software Development, currently at Ironwood Labs. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in CI/CD, Spring Boot and Node.js.
WORK EXPERIENCE	Senior Platform Engineer — Ironwood Labs 2017-2024 ■ Rewrote the search path in JavaScript, dropping median response from 320ms to 80ms for 6M monthly users. ■ Built a reusable Python component library adopted by 12 product teams, removing months of duplicated work. ■ Refactored the billing module behind a feature flag, eliminating 35% of recurring production incidents. ■ Drove the team's adoption of trunk-based development, reducing merge conflicts and lead time by 22%.
	Backend Developer — Clearwater Systems 2012-2015 ■ Cut CI build times by 30% by parallelising the CI/CD pipeline and caching dependency layers. ■ Designed and shipped Spring Boot services handling 5k requests per minute, cutting p99 latency from 120ms to 180ms. ■ Mentored 12 junior engineers, ran weekly design reviews, and authored the team's onboarding guide.
	Platform Engineer — Summit Digital 2009-2012 ■ Replaced a third-party dependency with an in-house Python module, saving \$2k per year in licence fees. ■ Partnered with product to scope and deliver 50 major releases, each behind staged rollouts.
EDUCATION AND TRAINING	Bachelor, Mathematics Yarrow Hills University 2008
PERSONAL SKILLS	CI/CD • Spring Boot • Node.js • Python • C# • Docker • JavaScript • PostgreSQL • Redis • Airflow • Hugging Face • Prometheus • SQL
ADDITIONAL INFORMATION	Training & Certifications Azure Solutions Architect Expert (AZ-305) — Microsoft, 2020 AWS Certified Solutions Architect - Associate — Amazon Web Services, 2023 Languages English - Bilingual Portuguese - Fluent Italian - Professional working proficiency

BETH BUTLER

mailto:info@sample.org
001-682-827-8248/96383

Personal Statement

Senior Data Scientist with 16 years in Data/ML, currently at Cobalt Systems. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in Docker, TensorFlow and MLflow.

Education & Qualifications

High School

West Angelashire High School | 2005 — 2008

Technical Skills

Docker, TensorFlow, MLflow, NumPy, AWS, Pandas, Databricks, BigQuery, Kafka, Next.js, Vue.js, Swift, FastAPI

Relevant Experience

Cobalt Systems — Senior Data Scientist

2019-12 — 2026-04

- Built the feature store that 8 downstream models now read from, ending duplicated feature logic.
- Trained and deployed NumPy models serving 2M predictions per day at under 80ms p95.
- Productionised demand forecasting models that reduced stock-outs by 18% across 15 regions.
- Lifted recommendation click-through by 55% through feature engineering and retraining cadence in TensorFlow.

Senior ML Ops Engineer, Lumen Works

2015-03 — 2019-07

- Built an end-to-end training pipeline on NumPy, cutting retraining from days to 10 hours.
- Developed an NLP classification system in Pandas reaching 92% F1, replacing a manual review queue.
- Mentored 5 analysts moving into modelling work, with weekly paper reading and code review.

Data Scientist

Meridian Software | 2010-12 — 2015-02

- Ran A/B tests across 15 model variants; the winning variant added an estimated \$150k in annual revenue.
- Reduced label noise by redesigning the annotation guidelines, improving validation accuracy by 35%.

AI Researcher, Harbor Point Tech

2009-10 — 2010-12

- Cut inference cost by 15% through quantisation, batching and autoscaling on Docker.
- Wrote the team's model documentation and review standard, now required before any production launch.

Junior Data Scientist, Beacon Interactive

2009-02 — 2009-09

- Migrated ad-hoc notebooks into versioned TensorFlow pipelines with reproducible runs and tracked experiments.
- Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders.

Data: Snowflake, Airflow, PostgreSQL, MySQL
Analytics & Design: Power BI

Employment History

Analytics Engineer, Meridian Software

10/2020 - 04/2026 | South Jenniferport (Remote (UK))

- Modelled pricing scenarios in Airflow, supporting a 70% margin improvement.
- Ran cohort analysis that reframed how the business measures activation.
- Trained 6 non-technical colleagues to self-serve, cutting ad-hoc request volume by 25%.
- Partnered with engineering to fix event tracking, recovering 18% of previously lost sessions.
