

# AMBER G. MORRIS

jenniferserrano@example.org • 001-334-387-4939x1660 • linkedin.com/in/amber-g-morris • github.com/amberdev

## Profile

15 years in Data Analysis, most of it spent on systems other teams depend on. Comfortable leading technical decisions, pushing back on scope when it matters, and carrying a pager for what I build. Primary tools: Spark and Snowflake.

## Relevant Experience

|                   |                                                                                                                                                                                                                                                                                                                                       |

## Academic Background

### Master, Business Administration

Georgia Institute of Technology | 2008 – 2009

### Bachelor, Business Administration

Westfield State University | 2003 – 2007

## Technical Skills

- Spark
- Snowflake
- Excel
- Tableau
- dbt
- Pandas
- NumPy
- Redshift
- Looker
- pytest
- Playwright
- Linux
- Postman
- LangChain

## Side Projects

### Technical blog

Writing up Spark experiments and failures, roughly 9k readers a month.

## Certifications

AWS Certified Developer - Associate — Amazon Web Services, 2017

Professional Data Engineer — Google Cloud, 2022
