Professional Profile

13 years in Product/Design, most of it spent on systems other teams depend on. Comfortable leading technical decisions, pushing back on scope when it matters, and carrying a pager for what I build. Primary tools: Power BI and Figma.

Key Achievements

- Prioritised a backlog for 40 engineers, delivering 12 releases per quarter.
- Redesigned onboarding in React, lifting activation from 10% to 85%.
- Shipped a design system in TypeScript adopted across 8 product surfaces.

Professional Experience

Senior Technical Product Manager, Salesforce

Jul '19 – May '26

- Wrote the PRDs and acceptance criteria for a platform migration affecting 12k users.
- Partnered with data to define activation and retention definitions the whole company now uses.
- Introduced accessibility standards to the design process, taking 2 flows to WCAG AA.

Meridian Software — UX Researcher

Feb '17 – Apr '19

- Prototyped 15 concepts in TypeScript and killed two early on evidence rather than opinion.
- Ran discovery interviews with 10 customers, reshaping the following year's roadmap.

Junior Product Designer

Meta | Nov '12 – Jan '17

- Reduced support contacts by 45% by reworking the checkout and error states.

Academic Background

PhD, Mathematics

Northgate University | 2008 – 2012

Thesis: "Convergence bounds for stochastic optimisation methods"

Bachelor, Mathematics

Granite Bay University | 2003 – 2007

Technical Proficiencies

Power BI • Figma • Git • Sketch • Tableau • TypeScript • Looker • React • Confluence • Elasticsearch • Python • PostgreSQL • GCP

Open Source

Recipe search engine

Full-text search over a scraped recipe corpus using Tableau; learned more about ranking than about cooking.

Technical blog

Writing up GCP experiments and failures, roughly 8k readers a month.
