Professional Profile

Senior Machine Learning Engineer with 21 years in Data/AI/ML, currently at Harbor Point Tech. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in Hugging Face, Spark and Kafka.

Key Achievements

- Mentored 10 analysts moving into modelling work, with weekly paper reading and code review.
- Developed an NLP classification system in TensorFlow reaching 94% F1, replacing a manual review queue.
- Established offline/online evaluation parity, catching 5 silent regressions before release.

Relevant Experience

Senior Machine Learning Engineer, Harbor Point Tech

Jul '16 – Present

- Productionised demand forecasting models that reduced stock-outs by 60% across 10 regions.
- Ran A/B tests across 8 model variants; the winning variant added an estimated \$80k in annual revenue.
- Migrated ad-hoc notebooks into versioned Scikit-learn pipelines with reproducible runs and tracked experiments.
- Lifted recommendation click-through by 20% through feature engineering and retraining cadence in TensorFlow.
- Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders.

Applied Scientist, Ironwood Labs

Mar '08 – Apr '16

- Built an end-to-end training pipeline on MLflow, cutting retraining from days to 20 hours.
- Trained and deployed TensorFlow models serving 15M predictions per day at under 60ms p95.
- Cut inference cost by 12% through quantisation, batching and autoscaling on GitHub Actions.
- Reduced label noise by redesigning the annotation guidelines, improving validation accuracy by 25%.

Applied Scientist, Snowflake

Jul '05 – Jan '08

- Wrote the team's model documentation and review standard, now required before any production launch.
- Built the feature store that 10 downstream models now read from, ending duplicated feature logic.
- Presented the team's work at an internal engineering forum of 100+ colleagues.

Lumen Works — AI Researcher

May '04 – May '05

- Interviewed and onboarded 30 new hires, shaping the hiring bar for the team.
- Managed stakeholder communication during a major incident, including the post-mortem.
- Introduced written design docs and an RFC process, cutting rework late in delivery.

Academic History

Master, Biology

Oakmere University | 2002 – 2004

Bachelor, Biology

Cedar Hollow University | 1998 – 2001

Skills & Tools

Skill	Experience
Hugging Face	6 yrs

Spark	22 yrs
Kafka	14 yrs
BigQuery	14 yrs
Python	8 yrs
MLflow	1 year
NumPy	19 yrs
TensorFlow	20 yrs
AWS	1 year
Scikit-learn	13 yrs
Pandas	7 yrs
GitHub Actions	5 yrs
Selenium	10 yrs
Figma	9 yrs
Redshift	15 yrs
Go	6 yrs

Certificates

Certified Information Systems Security Professional (CISSP) — ISC2, 2021

Azure Solutions Architect Expert (AZ-305) — Microsoft, 2017

Azure Fundamentals (AZ-900) — Microsoft, 2016
