Career Objective

Senior Software Development professional, 9 years in. Track record of taking ambiguous problems through design, delivery and the unglamorous operational work that follows. I mentor deliberately and write things down. Core stack: Java, Python, Go.

Employment History

Senior Software Engineer, Clearwater Systems

July 2023 to Current

- Replaced a third-party dependency with an in-house REST APIs module, saving \$3k per year in licence fees.
- Mentored 3 junior engineers, ran weekly design reviews, and authored the team's onboarding guide.
- Partnered with product to scope and deliver 3 major releases, each behind staged rollouts.

SAP — Backend Developer

April 2017 to June 2023

- Cut CI build times by 25% by parallelising the Docker pipeline and caching dependency layers.
- Drove the team's adoption of trunk-based development, reducing merge conflicts and lead time by 25%.
