ABOUT ME

Software Engineer with 1 year of commercial experience across Software Development. I learn fast, ask a lot of questions, and care about leaving code clearer than I found it. Core tools: Node.js, GraphQL.

WORK EXPERIENCE

Jul 2025 – Current	Software Engineer BrightPath Solutions - Set the service-level objectives for 2 services and built the dashboards the team still runs on. - Designed and shipped GraphQL services handling 50k requests per minute, cutting p99 latency from 1200ms to 60ms. - Cut CI build times by 25% by parallelising the Docker pipeline and caching dependency layers.
--------------------	--

EDUCATION AND TRAINING

Master, Electrical Engineering

University of California, Berkeley | 2024 – 2025

Cum Laude

Thesis: “Low-power sensor networks for building monitoring”

Bachelor, Physics

Granite Bay University | 2019 – 2023

TECHNOLOGIES

Node.js (1 yr exp), GraphQL (1 yr exp), JavaScript (1 yr exp), REST APIs (1 yr exp), TensorFlow (1 yr exp), Docker (1 yr exp), FastAPI (1 yr exp)
