

Norman Bowers

Professional Summary

AI Researcher with 3 years in Data/AI/ML, focused on Python and Snowflake. Comfortable owning a feature from discovery through to production support.

Professional Experience

AI Researcher, Airbnb

Apr 2024 – Aug 2026 | South Hollyville (Remote (UK))

- Trained and deployed Python models serving 6M predictions per day at under 140ms p95.
- Reduced label noise by redesigning the annotation guidelines, improving validation accuracy by 20%.
- Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders.

Applied Scientist, Amazon

Mar 2023 – Nov 2023 | Port Tara

- Developed an NLP classification system in TensorFlow reaching 82% F1, replacing a manual review queue.
- Wrote the team's model documentation and review standard, now required before any production launch.

Qualifications

Bachelor, Mathematics

Northgate University | 2018 – 2021

Tech Stack

Python — Working knowledge

Snowflake — Working knowledge

TensorFlow — Intermediate

Node.js — Intermediate

CI/CD — Working knowledge

Selected Projects

Home energy dashboard

Collects meter readings and renders them with Python. Mostly an excuse to learn time-series storage properly.

Recipe search engine

Full-text search over a scraped recipe corpus using Node.js; learned more about ranking than about cooking.

Training & Certifications

Professional Data Engineer — Google Cloud, 2016

Volunteering

Maintainer of a small open-source Snowflake library used by a handful of teams.
