Alexander Moreno

Junior Full-Stack Developer

CAREER OBJECTIVE

Pragmatic Junior Full-Stack Developer (6 years in Software Development). I enjoy untangling messy systems and leaving them simpler than I found them. Day to day that means Node.js, JavaScript and a lot of conversations with the people who use what we build.

WORK EXPERIENCE

Junior Full-Stack Developer

Ironwood Labs | 2019–2026 | Port Ethan

- Cut CI build times by 60% by parallelising the Prometheus pipeline and caching dependency layers.
- Partnered with product to scope and deliver 4 major releases, each behind staged rollouts.
- Drove the team's adoption of trunk-based development, reducing merge conflicts and lead time by 12%.
- Refactored the billing module behind a feature flag, eliminating 60% of recurring production incidents.

ACADEMIC HISTORY

Master, Physics

Sandalwood University | 2019

Thesis: “Statistical modelling of detector noise”

Bachelor, Physics

Westfield State University | 2013–2016

RECOGNITION

Employee of the Quarter, 2024
