Professional Summary

Software Development specialist with 7 years+ building and shipping production systems. Deep hands-on experience with React, GraphQL and pytest, most recently at Oracle.

Career History

Software Engineer

Oracle | 2024–Present

- Replaced a third-party dependency with an in-house gRPC module, saving \$30k per year in licence fees.
- Owned the customer-facing API end to end on FastAPI, from schema design through on-call support.
- Introduced contract testing with pytest, lifting coverage from 10% to 96% and cutting integration bugs.
- Drove the team's adoption of trunk-based development, reducing merge conflicts and lead time by 35%.

Junior Platform Engineer, Meridian Software

2019–2023

- Designed and shipped React services handling 12k requests per minute, cutting p99 latency from 450ms to 40ms.
- Partnered with product to scope and deliver 12 major releases, each behind staged rollouts.
- Refactored the billing module behind a feature flag, eliminating 20% of recurring production incidents.

Academic Background

Bachelor, Electrical Engineering

Lakeshore University | 2014–2018

Relevant coursework: Embedded Systems, Microelectronics, Control Systems, Signal Processing

Skills & Tools

Languages: JavaScript

Frameworks: React, FastAPI

Cloud & DevOps: Docker, Terraform, Kubernetes

Data: PostgreSQL

Testing & Tooling: GraphQL, pytest, gRPC

Side Projects

React utility library

Open-source helper library for React, ~200 GitHub stars. Wrote the docs and handled issue triage.

Charity chatbot

Built a Kubernetes assistant for a local charity to answer volunteer questions; retired it once they moved to a supported platform.

Certifications

Google Analytics Certification — Google, 2017

Language Skills

English – Fluent

German – Basic (A2)

Dutch – Conversational

Hobbies & Interests

Board games, Jazz guitar
