

Pamela Paul

PERSONAL STATEMENT

16 years in Data/AI/ML, most of it spent on systems other teams depend on. Comfortable leading technical decisions, pushing back on scope when it matters, and carrying a pager for what I build. Primary tools: Docker and Pandas.

EXPERIENCE

Aug '21 – Present	Senior MLOps Engineer SAP – Wrote the team's model documentation and review standard, now required before any production launch. – Migrated ad-hoc notebooks into versioned Python pipelines with reproducible runs and tracked experiments. – Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders.
Sep '10 – Aug '21	Machine Learning Engineer IBM – Ran A/B tests across 2 model variants; the winning variant added an estimated \$20k in annual revenue. – Productionised demand forecasting models that reduced stock-outs by 20% across 2 regions.

ACADEMIC BACKGROUND

PhD, Information Systems

Halloway Institute of Technology | 2005 – 2008

Bachelor, Information Systems

Copperfield State University | 2000 – 2004

SKILLS & TOOLS

Docker (10 yr exp), Pandas (11 yr exp), LangChain (6 yr exp), Python (5 yr exp), Scikit-learn (8 yr exp), Spark (10 yr exp), BigQuery (8 yr exp), Snowflake (11 yr exp), Postman (7 yr exp), Scala (14 yr exp), Vue.js (4 yr exp), gRPC (6 yr exp)

LANGUAGE SKILLS

English – Bilingual

Portuguese – C1
