PROFESSIONAL SUMMARY

Early-career Junior Data Scientist with 1 year in Data/AI/ML. Strongest in Docker; currently deepening my Python experience through production work rather than tutorials.

ACADEMIC BACKGROUND

Bachelor, Data Science

Pinehurst University | 2022 – 2025

GPA 3.8/4.0

WORK EXPERIENCE

Junior Data Scientist

Stripe | Jan '25 – Present | Josephyview (On-site)

- » Migrated ad-hoc notebooks into versioned Spark pipelines with reproducible runs and tracked experiments.
- » Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders.
- » Built an end-to-end training pipeline on Python, cutting retraining from days to 5 hours.
- » Established offline/online evaluation parity, catching 3 silent regressions before release.

TECHNOLOGIES

Docker • Python • Spark • SQL • pytest • MongoDB • FastAPI

NOTABLE PROJECTS

Recipe search engine

Full-text search over a scraped recipe corpus using pytest; learned more about ranking than about cooking.

Home energy dashboard

Collects meter readings and renders them with Python. Mostly an excuse to learn time-series storage properly.

Personal finance tracker

Self-hosted spend tracker built with pytest. Deliberately kept the data local rather than using a hosted service.

CERTIFICATIONS

Professional Scrum Master I (PSM I) — Scrum.org, 2024

AWS Certified Developer - Associate — Amazon Web Services, 2026

PUBLICATIONS

"Handling label noise in weakly supervised classification" - accepted at a peer-reviewed workshop, 2027.
