PERSONAL STATEMENT

21 years in Software Development, most of it spent on systems other teams depend on. Comfortable leading technical decisions, pushing back on scope when it matters, and carrying a pager for what I build. Primary tools: Spring Boot and C#.

EXPERIENCE

Apr 2012 – Current	Senior Backend Developer Keystone Apps ■ Set the service-level objectives for 6 services and built the dashboards the team still runs on. ■ Owned the customer-facing API end to end on C++, from schema design through on-call support. ■ Replaced a third-party dependency with an in-house Java module, saving \$10k per year in licence fees.
Jul 2009 – Feb 2012	Platform Engineer BrightPath Solutions ■ Cut CI build times by 45% by parallelising the Docker pipeline and caching dependency layers. ■ Partnered with product to scope and deliver 3 major releases, each behind staged rollouts.
Jun 2007 – Apr 2009	Platform Engineer Oracle ■ Introduced contract testing with CI/CD, lifting coverage from 40% to 94% and cutting integration bugs.
May 2005 – Apr 2007	Backend Developer Nova Tech Group ■ Mentored 15 junior engineers, ran weekly design reviews, and authored the team's onboarding guide.
Nov 2003 – Dec 2004	Software Engineer Adobe ■ Hardened authentication flows in Python after a security review, closing 40 findings before audit.

QUALIFICATIONS

Bachelor, Electrical Engineering

Granite Bay University | 2003

Graduated with Distinction

TECH STACK

Languages: C#, Java, JavaScript, Python, C++

Frameworks: Spring Boot, Node.js, Django

Cloud & DevOps: CI/CD, Docker, Ansible

Data: PostgreSQL, Redis, dbt, Redshift

Testing & Tooling: REST APIs

PROFESSIONAL CERTIFICATIONS

Azure Solutions Architect Expert (AZ-305) — Microsoft, 2026

ISTQB Certified Tester - Foundation Level — ISTQB, 2019

Professional Scrum Master I (PSM I) — Scrum.org, 2019

ACHIEVEMENTS

Peer Recognition Award, 2019

Innovation Award, 2018

COMMUNITY

Mentor, a local refugee support charity - coaching career changers through their first technical role.
