Employment History

Quality Engineer, Vantage Analytics

2021-11 — Present | West Jeremy (Remote)

- Introduced flaky-test quarantine, taking suite reliability from 40% to 94%.
- Built the defect triage process and reporting the engineering leads still use.
- Set up cross-browser and device coverage in Playwright, catching defects staging had missed.

Personal Projects

Commute optimiser

Pulls transit APIs and suggests departure times, built on Selenium.

Recipe search engine

Full-text search over a scraped recipe corpus using Python; learned more about ranking than about cooking.
