Summary

8 years in Data/AI/ML, most of it spent on systems other teams depend on. Comfortable leading technical decisions, pushing back on scope when it matters, and carrying a pager for what I build. Primary tools: Snowflake and Spark.

Education

High School

Matthewsberg High School | 2017

Core Competencies

Snowflake (7 years), Spark (2 years), NumPy (6 years), SQL (8 years), Hugging Face (6 years), React (6 years), Node.js (6 years), AWS (1 year)

Relevant Experience

Senior MLOps Engineer, SAP

09/2023 - 04/2026

- Trained and deployed Spark models serving 4M predictions per day at under 40ms p95.
- Ran A/B tests across 5 model variants; the winning variant added an estimated \$50k in annual revenue.
- Productionised demand forecasting models that reduced stock-outs by 55% across 2 regions.
- Developed an NLP classification system in Hugging Face reaching 92% F1, replacing a manual review queue.

MLOps Engineer, BrightPath Solutions

05/2021 - 06/2023

- Established offline/online evaluation parity, catching 40 silent regressions before release.
- Cut inference cost by 70% through quantisation, batching and autoscaling on AWS.
- Built an end-to-end training pipeline on Hugging Face, cutting retraining from days to 8 hours.

Applied Scientist

Stonebridge IT | 02/2017 - 02/2021

- Wrote the team's model documentation and review standard, now required before any production launch.
- Built the feature store that 4 downstream models now read from, ending duplicated feature logic.

Training & Certifications

TensorFlow Developer Certificate — Google, 2019

Achievements

Peer Recognition Award, 2025

Language Skills

English – Bilingual
Japanese – Basic (A2)
