ABOUT ME

Product/Design graduate with 2 years of hands-on experience, most recently at IBM. Comfortable with React and Sketch, and keen to work somewhere with strong code review culture.

WORK EXPERIENCE

Junior Product Manager, IBM

2024–Present

- Shipped a design system in React adopted across 50 product surfaces.
- Negotiated scope with engineering and legal to ship a compliance deadline on time.

EDUCATION & QUALIFICATIONS

High School

Port Lisa High School | 2021–2024

TECH STACK

React (2 yrs), Sketch (1 year), Tableau (1 year), Spark (1 year), Kubernetes (1 year)

NOTABLE PROJECTS

Conference talk

Spoke on Kubernetes in production at a regional meetup, ~20 attendees.

Match-day predictor

Small model in Kubernetes predicting league results. Beats the naive baseline; still loses to the bookmakers.

Commute optimiser

Pulls transit APIs and suggests departure times, built on Tableau.
