About Me

14 years in Product/Design, most of it spent on systems other teams depend on. Comfortable leading technical decisions, pushing back on scope when it matters, and carrying a pager for what I build. Primary tools: SQL and Sketch.

Qualifications

Bachelor, Information Systems

University of Waterloo | 2008 — 2011

Relevant Experience

Technical Product Manager, Vantage Analytics

2018-03 — Present | Andersonview

- Facilitated usability testing that surfaced 50 critical friction points before launch.
- Shipped a design system in Sketch adopted across 4 product surfaces.
- Negotiated scope with engineering and legal to ship a compliance deadline on time.
- Wrote the PRDs and acceptance criteria for a platform migration affecting 12k users.
- Prioritised a backlog for 4 engineers, delivering 12 releases per quarter.

Product Manager, Oracle

2013-11 — 2018-03 | Kathrynstad

- Ran quarterly roadmap reviews with executive stakeholders and published the trade-offs openly.
- Defined north-star metrics and instrumented them across 8 delivery squads.
- Ran discovery interviews with 10 customers, reshaping the following year's roadmap.
- Reduced support contacts by 40% by reworking the checkout and error states.

UX Designer, Keystone Apps

2013-02 — 2013-09 | South Brettside

- Built the experimentation framework the team uses to size bets before committing.
- Redesigned onboarding in TypeScript, lifting activation from 10% to 96%.
- Prototyped 6 concepts in Sketch and killed two early on evidence rather than opinion.

Shopify — Product Manager

2012-07 — 2012-12 | West Angela

- Partnered with data to define activation and retention definitions the whole company now uses.
- Introduced accessibility standards to the design process, taking 5 flows to WCAG AA.
- Led a team of 6 through a full replatforming with no missed delivery dates.

Technical Product Manager, BrightPath Solutions

2011-12 — 2012-05 | South Williamside

- Introduced written design docs and an RFC process, cutting rework late in delivery.
- Presented the team's work at an internal engineering forum of 50+ colleagues.
- Ran retrospectives and drove the follow-up actions to completion, not just to the board.

Skills

SQL | Sketch | Confluence | Git | Jira | TypeScript | Excel | Figma | Azure | FastAPI | GCP

Projects

Home energy dashboard

Collects meter readings and renders them with Excel. Mostly an excuse to learn time-series storage properly.

Professional Certifications

Certified Kubernetes Administrator (CKA) — Cloud Native Computing Foundation, 2023

AWS Certified Developer - Associate — Amazon Web Services, 2026

AWS Certified Solutions Architect - Associate — Amazon Web Services, 2018

Selected Publications

"Data governance in federated organisations" - co-authored conference paper, 2013.

Hobbies & Interests

Competitive pub quizzes, Board games
