

Michael Cooper

Platform Engineer

CAREER OBJECTIVE

Platform Engineer with 15 years in Software Development, currently at Clearwater Systems. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in Go, Vue.js and Java.

ACADEMIC BACKGROUND

Bachelor, Electrical Engineering

Cedar Hollow University | 2005 – 2009

WORK EXPERIENCE

Platform Engineer

Clearwater Systems | Jan '16 – Present | Port Lori

- Led the migration of a legacy monolith to Go, taking deployments from fortnightly to 30 per day.
- Drove the team's adoption of trunk-based development, reducing merge conflicts and lead time by 30%.
- Mentored 10 junior engineers, ran weekly design reviews, and authored the team's onboarding guide.
- Owned the customer-facing API end to end on Vue.js, from schema design through on-call support.
- Replaced a third-party dependency with an in-house Java module, saving \$2k per year in licence fees.

Junior Backend Developer

Stonebridge IT | Mar '11 – Oct '15 | Hickmanport

- Hardened authentication flows in Go after a security review, closing 20 findings before audit.
- Rewrote the search path in JavaScript, dropping median response from 600ms to 40ms for 15M monthly users.
- Cut CI build times by 30% by parallelising the Nginx pipeline and caching dependency layers.
- Refactored the billing module behind a feature flag, eliminating 22% of recurring production incidents.

VOLUNTEERING

Maintainer of a small open-source pytest library used by a handful of teams.
