

Megan Gonzalez

PERSONAL STATEMENT

13 years in Data/AI/ML, most of it spent on systems other teams depend on. Comfortable leading technical decisions, pushing back on scope when it matters, and carrying a pager for what I build. Primary tools: Pandas and Snowflake.

EXPERIENCE

Applied Scientist

Palantir | 2016–Present | Port Cynthiashire

- Built the feature store that 6 downstream models now read from, ending duplicated feature logic.
- Trained and deployed Scikit-learn models serving 3M predictions per day at under 40ms p95.
- Developed an NLP classification system in Spark reaching 82% F1, replacing a manual review queue.
- Built an end-to-end training pipeline on Scikit-learn, cutting retraining from days to 12 hours.

AI Researcher

Beacon Interactive | 2014–2016 | South Pamelahaven

- Wrote the team's model documentation and review standard, now required before any production launch.
- Migrated ad-hoc notebooks into versioned Spark pipelines with reproducible runs and tracked experiments.
- Reduced label noise by redesigning the annotation guidelines, improving validation accuracy by 30%.

Oracle — Data Scientist

2014–2014 | Port Erinhaven (Remote)

- Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders.
- Productionised demand forecasting models that reduced stock-outs by 22% across 5 regions.

Adobe — Junior Applied Scientist

2013–2014 | Robertberg (Hybrid - 2 days on-site)

- Established offline/online evaluation parity, catching 50 silent regressions before release.
- Mentored 10 analysts moving into modelling work, with weekly paper reading and code review.

EDUCATION

High School

Vaughnmouth High School | 2008–2012

SKILLS & TOOLS

Pandas (8 yr exp), Snowflake (8 yr exp), Scikit-learn (2 yr exp), NumPy (1 yr exp), PyTorch (4 yr exp), AWS (10 yr exp), Kafka (10 yr exp), dbt (12 yr exp), Spark (2 yr exp), Vue.js (10 yr exp), GraphQL (12 yr exp)
