Experience

Harbor Point Tech — Junior Applied Scientist

06/2024 - 01/2026

- Productionised demand forecasting models that reduced stock-outs by 40% across 8 regions.

Open Source

Charity chatbot

Built a Jenkins assistant for a local charity to answer volunteer questions; retired it once they moved to a supported platform.

Personal finance tracker

Self-hosted spend tracker built with Selenium. Deliberately kept the data local rather than using a hosted service.

Home energy dashboard

Collects meter readings and renders them with Selenium. Mostly an excuse to learn time-series storage properly.
