Core Competencies

- » Postman
- » TypeScript
- » CI/CD
- » GitHub Actions
- » Playwright
- » Java
- » Python
- » AWS
- » Grafana
- » DynamoDB

Charles Adams

QA Engineer

Personal Statement

10 years in QA/Testing, most of it spent on systems other teams depend on. Comfortable leading technical decisions, pushing back on scope when it matters, and carrying a pager for what I build. Primary tools: Postman and TypeScript.

Professional Experience

QA Engineer

Datadog | Aug 2015 – Mar 2026

- » Reduced escaped defects by 12% through risk-based test prioritisation.
- » Introduced flaky-test quarantine, taking suite reliability from 10% to 94%.
- » Built a performance harness in Playwright simulating 2k concurrent users.
- » Set up cross-browser and device coverage in Playwright, catching defects staging had missed.

Education

Bachelor, Mathematics

Copperfield State University | 2015

Selected Projects

Match-day predictor

Small model in AWS predicting league results. Beats the naive baseline; still loses to the bookmakers.

Commute optimiser

Pulls transit APIs and suggests departure times, built on Postman.

Professional Certifications

Databricks Certified Data Engineer Associate — Databricks, 2023

HashiCorp Certified: Terraform Associate — HashiCorp, 2025

Certified ScrumMaster (CSM) — Scrum Alliance, 2019
