

Amanda R. Meadows

Applied Scientist

SUMMARY

Pragmatic Applied Scientist (6 years in Data/AI/ML). I enjoy untangling messy systems and leaving them simpler than I found them. Day to day that means TensorFlow, SQL and a lot of conversations with the people who use what we build.

PROFESSIONAL EXPERIENCE

Applied Scientist, Vantage Analytics

2023-01 — 2026-08

- » Ran A/B tests across 6 model variants; the winning variant added an estimated \$60k in annual revenue.
- » Cut inference cost by 25% through quantisation, batching and autoscaling on the in-house toolchain.
- » Mentored 40 analysts moving into modelling work, with weekly paper reading and code review.
- » Trained and deployed Pandas models serving 30M predictions per day at under 140ms p95.

Redwood Data — Junior MLOps Engineer

2019-07 — 2022-08

- » Wrote the team's model documentation and review standard, now required before any production launch.
- » Established offline/online evaluation parity, catching 10 silent regressions before release.
- » Lifted recommendation click-through by 12% through feature engineering and retraining cadence in NumPy.

EDUCATION & QUALIFICATIONS

PhD, Communications

Cedar Hollow University | 2013 — 2018

Thesis: "Framing effects in crisis communication"

Bachelor, Economics

Sandalwood University | 2012

OPEN SOURCE

Conference talk

Spoke on SQL in production at a regional meetup, ~70 attendees.

Match-day predictor

Small model in Pandas predicting league results. Beats the naive baseline; still loses to the bookmakers.

CORE COMPETENCIES

TensorFlow (3 yr exp), SQL (3 yr exp), Pandas (1 yr exp), Hugging Face (6 yr exp), NumPy (2 yr exp), Go (4 yr exp), Redis (5 yr exp), Selenium (1 yr exp)

LANGUAGE SKILLS

English — Bilingual

French — Fluent

Polish — Conversational
