About Me

28 years in DevOps/Infrastructure, most of it spent on systems other teams depend on. Comfortable leading technical decisions, pushing back on scope when it matters, and carrying a pager for what I build. Primary tools: GCP and Nginx.

Selected Highlights

- Introduced secret rotation and least-privilege IAM across 3 accounts.
- Built CI/CD pipelines with Nginx, bringing mean time to deploy under 2 minutes.
- Automated 5 manual runbooks, saving an estimated 8 engineer-hours per month.

Work Experience

Staff Site Reliability Engineer, Lumen Works

2011–2026

- Designed the multi-region failover strategy and led the game-day exercises that proved it.
- Reduced incident MTTR from 5 hours to under 40 minutes with better alert routing and runbooks.
- Ran the on-call rotation for 3 production services, sustaining 99.9% availability.
- Cut container image sizes by 55%, shortening cold starts across the fleet.
- Improved cluster utilisation by 22% through right-sizing and GCP autoscaling policies.

Senior Infrastructure Engineer

Vantage Analytics | 2005–2011

- Introduced infrastructure-as-code with GCP, eliminating manual provisioning entirely.
- Wrote the platform team's paved-road documentation, cutting onboarding from weeks to days.
- Led the Kubernetes upgrade across 6 clusters with zero customer-visible downtime.
- Hardened Ansible environments ahead of SOC 2, closing 50 critical findings.

Summit Digital — Platform Engineer

2002–2005

- Migrated 20 services to GCP, cutting monthly infrastructure spend by 35%.
- Built observability on Datadog so teams could self-serve dashboards instead of filing tickets.
- Took over an unowned service, documented it and brought it back under SLO.

Spotify — Junior Site Reliability Engineer

1997–2002

- Standardised the team's tooling with Terraform, ending long-running environment drift.
- Reduced technical debt on a legacy component that had blocked 6 previous attempts.
- Led a team of 4 through a full replatforming with no missed delivery dates.

Qualifications

Bachelor, Physics

Halloway Institute of Technology | 1994–1997

Technical Skills

- GCP
- Nginx

- Docker
- Redis
- Go
- Azure
- AWS
- Datadog
- Ansible
- Terraform
- Python
- Node.js
- Swift
- Sketch
- Kafka
- Figma

Recognition

Graduated with Distinction, 2026

Language Skills

English – C2

Dutch – C1
