Professional Profile

Software Development graduate with 1 year of hands-on experience, most recently at Salesforce. Comfortable with Spring Boot and Python, and keen to work somewhere with strong code review culture.

Employment History

Salesforce — Junior Platform Engineer

2025-05 — Present | West Amber (Hybrid - 2 days on-site)

- » Mentored 40 junior engineers, ran weekly design reviews, and authored the team's onboarding guide.
- » Led the migration of a legacy monolith to Python, taking deployments from fortnightly to 10 per day.
- » Designed and shipped Python services handling 15k requests per minute, cutting p99 latency from 600ms to 80ms.
- » Drove the team's adoption of trunk-based development, reducing merge conflicts and lead time by 18%.

Academic History

Bachelor, Information Systems

National University of Singapore | 2021 — 2024

Dean's List (2 years)

Relevant coursework: IT Governance, Business Process Modelling, Enterprise Architecture, Database Design

Skills & Tools

Spring Boot

Python

gRPC

GitHub Actions

Playwright

Notable Projects

Charity chatbot

Built a GitHub Actions assistant for a local charity to answer volunteer questions; retired it once they moved to a supported platform.

Recipe search engine

Full-text search over a scraped recipe corpus using Python; learned more about ranking than about cooking.

Match-day predictor

Small model in Python predicting league results. Beats the naive baseline; still loses to the bookmakers.

Recognition

Innovation Award, 2024

Language Skills

English – C2

Hindi – Intermediate (B1)

Outside of Work

Chess, Jazz guitar, Baking, Home automation
