PROFESSIONAL SUMMARY

Machine Learning Engineer with 13 years in Data/AI/ML, currently at Ironwood Labs. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in Docker, Airflow and LangChain.

EXPERIENCE

Machine Learning Engineer, Ironwood Labs

Mar '16 – Present

- Reduced label noise by redesigning the annotation guidelines, improving validation accuracy by 30%.
- Built the feature store that 8 downstream models now read from, ending duplicated feature logic.
- Cut inference cost by 15% through quantisation, batching and autoscaling on AWS.
- Migrated ad-hoc notebooks into versioned LangChain pipelines with reproducible runs and tracked experiments.
- Productionised demand forecasting models that reduced stock-outs by 40% across 3 regions.

Vantage Analytics — Junior Applied Scientist

Dec '13 – Nov '15

- Established offline/online evaluation parity, catching 3 silent regressions before release.
- Mentored 8 analysts moving into modelling work, with weekly paper reading and code review.
- Lifted recommendation click-through by 35% through feature engineering and retraining cadence in LangChain.
- Ran A/B tests across 30 model variants; the winning variant added an estimated \$300k in annual revenue.

Summit Digital — Data Scientist

Nov '12 – Oct '13

- Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders.
- Trained and deployed NumPy models serving 10M predictions per day at under 80ms p95.
- Developed an NLP classification system in LangChain reaching 90% F1, replacing a manual review queue.

Junior AI Researcher, Spotify

Apr '12 – Sep '12

- Wrote the team's model documentation and review standard, now required before any production launch.
- Built an end-to-end training pipeline on LangChain, cutting retraining from days to 20 hours.
- Led a team of 12 through a full replatforming with no missed delivery dates.

ACADEMIC BACKGROUND

Master, Electrical Engineering

Oakmere University | 2011 – 2012

Thesis: "Low-power sensor networks for building monitoring"

Bachelor, Electrical Engineering

Eastbrook State University | 2007 – 2011

TECHNOLOGIES

- Docker
- Airflow
- LangChain
- NumPy
- Kafka
- AWS
- TensorFlow
- Spark
- PyTorch

- dbt
- Vue.js
- Java
- Excel
- JavaScript

TRAINING & CERTIFICATIONS

Certified Kubernetes Administrator (CKA) — Cloud Native Computing Foundation, 2024

Professional Scrum Master I (PSM I) — Scrum.org, 2019

RECOGNITION

Internal Hackathon Winner, 2022

PERSONAL INTERESTS

Travel photography, Amateur photography, Rock climbing
