

Nathaniel Williamson

Backend Developer

Professional Summary

Software Development graduate with 2 years of hands-on experience, most recently at BrightPath Solutions. Comfortable with JavaScript and GraphQL, and keen to work somewhere with strong code review culture.

Education and Training

Bachelor, Economics

Eastbrook State University | 2024

Relevant coursework: Game Theory, Econometrics, Public Economics, Microeconomic Theory

Work Experience

Backend Developer

BrightPath Solutions | Sep '24 – Present | Robertofort (On-site)

- Introduced contract testing with the automation framework, lifting coverage from 4% to 82% and cutting integration bugs.
- Designed and shipped GraphQL services handling 3k requests per minute, cutting p99 latency from 450ms to 40ms.
- Replaced a third-party dependency with an in-house JavaScript module, saving \$20k per year in licence fees.
- Owned the customer-facing API end to end on JavaScript, from schema design through on-call support.

Side Projects

Recipe search engine

Full-text search over a scraped recipe corpus using Redis; learned more about ranking than about cooking.

Commute optimiser

Pulls transit APIs and suggests departure times, built on GraphQL.

GraphQL utility library

Open-source helper library for GraphQL, ~200 GitHub stars. Wrote the docs and handled issue triage.

Honours & Awards

Best Team Contribution, 2019

Volunteering

Mentor, the university alumni network - coaching career changers through their first technical role.

Skills

JavaScript — Working knowledge
GraphQL — Working knowledge
Redis — Working knowledge
React — Working knowledge
Linux — Working knowledge
Power BI — Working knowledge
DynamoDB — Working knowledge

Languages

English – Bilingual
Dutch – C1
Hindi – Intermediate (B1)

Interests

Urban sketching, Woodworking,
Amateur photography
