CAREER OBJECTIVE

9 years in QA/Testing, most of it spent on systems other teams depend on. Comfortable leading technical decisions, pushing back on scope when it matters, and carrying a pager for what I build. Primary tools: CI/CD and Cypress.

April 2019 to December 2020	QA Engineer Nova Tech Group – Built the defect triage process and reporting the engineering leads still use. – Reduced escaped defects by 60% through risk-based test prioritisation. – Introduced flaky-test quarantine, taking suite reliability from 40% to 82%.
