CAREER OBJECTIVE

Data Analysis graduate with 1 year of hands-on experience, most recently at Clearwater Systems. Comfortable with Airflow and SQL, and keen to work somewhere with strong code review culture.

EDUCATION

High School

Port Monicaburgh High School | 2021 — 2024

EMPLOYMENT HISTORY

Data Analyst, Clearwater Systems

2024-12 — 2026-01

- Designed the experiment readouts template now used company-wide.
- Presented findings to the executive team monthly, translating analysis into concrete decisions.
- Ran cohort analysis that reframed how the business measures activation.

TECHNICAL SKILLS

Skill	Experience
Airflow	1 year
SQL	1 year
Tableau	1 year
NumPy	1 year
Playwright	1 year
Pandas	1 year
Kubernetes	1 year

PROJECTS

Match-day predictor

Small model in Playwright predicting league results. Beats the naive baseline; still loses to the bookmakers.

Home energy dashboard

Collects meter readings and renders them with Airflow. Mostly an excuse to learn time-series storage properly.

Personal finance tracker

Self-hosted spend tracker built with Tableau. Deliberately kept the data local rather than using a hosted service.

VOLUNTEERING

Maintainer of a small open-source Playwright library used by a handful of teams.
