Profile

Pragmatic Platform Engineer (4 years in Software Development). I enjoy untangling messy systems and leaving them simpler than I found them. Day to day that means Next.js, FastAPI and a lot of conversations with the people who use what we build.

Experience

Salesforce — Platform Engineer

04/2022 - Present | North Nathan

- Refactored the billing module behind a feature flag, eliminating 55% of recurring production incidents.
- Cut CI build times by 45% by parallelising the Kubernetes pipeline and caching dependency layers.
- Drove the team's adoption of trunk-based development, reducing merge conflicts and lead time by 18%.
- Built a reusable FastAPI component library adopted by 10 product teams, removing months of duplicated work.
