ACADEMIC BACKGROUND

PhD, Biology

Georgia Institute of Technology | 2017 to 2022

Thesis: "Sequence alignment heuristics for large genomes"

Bachelor, Biology

Eastbrook State University | 2012 to 2016

EMPLOYMENT HISTORY

BrightPath Solutions — Junior Product Designer

August 2024 to Now | Lake Ronaldport

- Wrote the PRDs and acceptance criteria for a platform migration affecting 30k users.
- Built the experimentation framework the team uses to size bets before committing.
- Shipped a design system in React adopted across 20 product surfaces.

TECH STACK

Sketch (2 years), Confluence (2 years), React (1 year), C# (1 year), DynamoDB (1 year)

SIDE PROJECTS

Recipe search engine

Full-text search over a scraped recipe corpus using Confluence; learned more about ranking than about cooking.

Personal finance tracker

Self-hosted spend tracker built with Confluence. Deliberately kept the data local rather than using a hosted service.

Technical blog

Writing up Confluence experiments and failures, roughly 6k readers a month.

Volunteer Experience

Maintainer of a small open-source Sketch library used by a handful of teams.
