

JENNIFER OSBORN

mariahphillips@example.org 001-517-367-4124x151 Ericmouth

CAREER OBJECTIVE

Pragmatic Machine Learning Engineer (6 years in Data/AI/ML). I enjoy untangling messy systems and leaving them simpler than I found them. Day to day that means Airflow, LangChain and a lot of conversations with the people who use what we build.

EXPERIENCE

Machine Learning Engineer

Foxglove Media | December 2022 to August 2026

- Built the feature store that 30 downstream models now read from, ending duplicated feature logic.
- Wrote the team's model documentation and review standard, now required before any production launch.
- Cut inference cost by 45% through quantisation, batching and autoscaling on the in-house toolchain.
- Built an end-to-end training pipeline on MLflow, cutting retraining from days to 12 hours.

Meridian Software — Data Scientist

June 2021 to July 2022

- Reduced label noise by redesigning the annotation guidelines, improving validation accuracy by 12%.
- Productionised demand forecasting models that reduced stock-outs by 40% across 40 regions.
- Mentored 2 analysts moving into modelling work, with weekly paper reading and code review.

Cloudflare — Junior Applied Scientist

June 2019 to June 2021

- Migrated ad-hoc notebooks into versioned Python pipelines with reproducible runs and tracked experiments.
- Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders.

EDUCATION AND TRAINING

Master, Data Science

Riverside State University | 2017 to 2018

Thesis: "Handling label noise in weakly supervised classification"

Bachelor, Information Systems

Westfield State University | 2012 to 2016

CORE COMPETENCIES

Airflow — Proficient

LangChain — Intermediate

MLflow — Intermediate

Kafka — Proficient

TensorFlow — Working knowledge

Python — Intermediate

Scikit-learn — Intermediate

SQL — Proficient

Playwright — Proficient

Node.js — Working knowledge

SIDE PROJECTS

Commute optimiser

Pulls transit APIs and suggests departure times, built on LangChain.
