PROFESSIONAL SUMMARY

Product/Design graduate with 1 year of hands-on experience, most recently at Datadog. Comfortable with Git and Excel, and keen to work somewhere with strong code review culture.

QUALIFICATIONS

Master, Mathematics

Milbrook Institute of Technology | 2024

First Class Honours

Thesis: "Convergence bounds for stochastic optimisation methods"

Bachelor, Mathematics

Ellsworth State University | 2023

EMPLOYMENT HISTORY

Junior Product Designer, Datadog

October 2024 to Present

- Negotiated scope with engineering and legal to ship a compliance deadline on time.
- Ran quarterly roadmap reviews with executive stakeholders and published the trade-offs openly.
- Ran discovery interviews with 30 customers, reshaping the following year's roadmap.
- Prototyped 2 concepts in the design system and killed two early on evidence rather than opinion.

TECHNOLOGIES

Git — Working knowledge

Excel — Working knowledge

Confluence — Working knowledge

Ruby — Working knowledge

Pandas — Working knowledge

PROJECTS

Personal finance tracker

Self-hosted spend tracker built with Confluence. Deliberately kept the data local rather than using a hosted service.

Home energy dashboard

Collects meter readings and renders them with Git. Mostly an excuse to learn time-series storage properly.

Recipe search engine

Full-text search over a scraped recipe corpus using Excel; learned more about ranking than about cooking.

CERTIFICATIONS

Azure Fundamentals (AZ-900) — Microsoft, 2022

RESEARCH OUTPUT

"Convergence bounds for stochastic optimisation methods" - technical report, 2026. Cited internally as the basis for the current design.

"Convergence bounds for stochastic optimisation methods" - technical report, 2024. Cited internally as the basis for the current design.

OUTSIDE OF WORK

Board games, Jazz guitar, Cycling
