CAREER OBJECTIVE

Pragmatic Machine Learning Engineer (3 years in Data/AI/ML). I enjoy untangling messy systems and leaving them simpler than I found them. Day to day that means Hugging Face, PyTorch and a lot of conversations with the people who use what we build.

CAREER HISTORY

Machine Learning Engineer, Vantage Analytics

2023–Present

- » Cut inference cost by 45% through quantisation, batching and autoscaling on Ansible.
- » Wrote the team's model documentation and review standard, now required before any production launch.
- » Established offline/online evaluation parity, catching 10 silent regressions before release.
