Professional Profile

Applied Scientist with 9 years in Data/AI/ML, currently at Stripe. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in Spark, BigQuery and Airflow.

Work Experience

October 2021 to May 2026	Applied Scientist Stripe - Lifted recommendation click-through by 25% through feature engineering and retraining cadence in NumPy. - Developed an NLP classification system in Spark reaching 82% F1, replacing a manual review queue. - Established offline/online evaluation parity, catching 40 silent regressions before release. - Ran A/B tests across 4 model variants; the winning variant added an estimated \$40k in annual revenue. - Mentored 4 analysts moving into modelling work, with weekly paper reading and code review.
July 2018 to May 2021	Data Scientist Foxglove Media - Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders. - Trained and deployed Spark models serving 5M predictions per day at under 80ms p95. - Productionised demand forecasting models that reduced stock-outs by 20% across 30 regions. - Wrote the team's model documentation and review standard, now required before any production launch.
April 2017 to February 2018	Data Scientist Summit Digital - Migrated ad-hoc notebooks into versioned NumPy pipelines with reproducible runs and tracked experiments. - Built an end-to-end training pipeline on NumPy, cutting retraining from days to 15 hours. - Cut inference cost by 30% through quantisation, batching and autoscaling on Grafana.
December 2015 to February 2017	Junior AI Researcher Foxglove Media - Built the feature store that 40 downstream models now read from, ending duplicated feature logic. - Reduced label noise by redesigning the annotation guidelines, improving validation accuracy by 55%. - Ran retrospectives and drove the follow-up actions to completion, not just to the board.

Academic History

Bachelor, Mathematics

Carnegie Mellon University | 2012 to 2015

Core Competencies

Spark (8 yr exp), BigQuery (6 yr exp), Airflow (9 yr exp), SQL (1 yr exp), NumPy (2 yr exp), MLflow (1 yr exp), Kafka (1 yr exp), REST APIs (1 yr exp), Cypress (1 yr exp), Selenium (3 yr exp), Grafana (1 yr exp)

Professional Certifications

Google Analytics Certification — Google, 2023

Certified Information Systems Security Professional (CISSP) — ISC2, 2025

Honours & Awards

Best Team Contribution, 2023

Peer Recognition Award, 2021
