Profile

Recent graduate moving into DevOps/Infrastructure. Most of my practical experience is self-directed - personal projects in Grafana and Nginx - and I'm looking for a team to learn production engineering with.

Academic Background

Master, Information Systems

Lakeshore University | 2022 — 2024

Cum Laude

Thesis: "Adoption barriers for self-service analytics"

Relevant coursework: Database Design, Enterprise Architecture, IT Governance, Business Process Modelling

Bachelor, Information Systems

Ellsworth State University | 2021

Work Experience

Seeking a first professional role; see projects below.

Tech Stack

Grafana | Nginx | Ansible | Postman | Redis

Projects

Recipe search engine

Full-text search over a scraped recipe corpus using Nginx; learned more about ranking than about cooking.

Commute optimiser

Pulls transit APIs and suggests departure times, built on Nginx.

Conference talk

Spoke on Grafana in production at a regional meetup, ~50 attendees.

Certifications

Certified ScrumMaster (CSM) — Scrum Alliance, 2025

Publications

"Adoption barriers for self-service analytics" - co-authored conference paper, 2024.

"Data governance in federated organisations" - technical report, 2026. Cited internally as the basis for the current design.
