

# Sherry Clark

## About Me

Data/AI/ML specialist with 6 years+ building and shipping production systems. Deep hands-on experience with Snowflake, Databricks and Python, most recently at Datadog.

## Qualifications

### PhD, Communications

Aalto University | 2014–2018

First Class Honours

### Bachelor, Communications

Granite Bay University | 2014

## Experience

### AI Researcher, Datadog

2023–2026 | Lake Monicacheater

- Ran A/B tests across 10 model variants; the winning variant added an estimated \$100k in annual revenue.
- Mentored 10 analysts moving into modelling work, with weekly paper reading and code review.
- Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders.
- Built the feature store that 5 downstream models now read from, ending duplicated feature logic.

### Ironwood Labs — Machine Learning Engineer

2020–2023 | New Nicholashaven

- Reduced label noise by redesigning the annotation guidelines, improving validation accuracy by 20%.
- Trained and deployed Python models serving 5M predictions per day at under 110ms p95.
- Developed an NLP classification system in Databricks reaching 92% F1, replacing a manual review queue.

## Core Competencies

Snowflake, Databricks, Python, NumPy, Ruby, GitHub Actions, Cypress

## Personal Projects

### Commute optimiser

Pulls transit APIs and suggests departure times, built on NumPy.

### Home energy dashboard

Collects meter readings and renders them with Ruby. Mostly an excuse to learn time-series storage properly.

## Professional Certifications

Certified ScrumMaster (CSM) — Scrum Alliance, 2026

AWS Certified Developer - Associate — Amazon Web Services, 2026

Databricks Certified Data Engineer Associate — Databricks, 2022

## Publications

"Framing effects in crisis communication" - technical report, 2020. Cited internally as the basis for the current design.

"Trust signals in digital public messaging" - co-authored conference paper, 2020.

## Interests

Competitive pub quizzes, Amateur photography, Open-source contribution
