ABOUT ME

UX Designer with 15 years in Product/Design, currently at Redwood Data. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in SQL, Figma and Confluence.

CAREER HISTORY

2016-05 — Present	UX Designer Redwood Data » Wrote the PRDs and acceptance criteria for a platform migration affecting 2k users. » Shipped a design system in React adopted across 12 product surfaces. » Ran quarterly roadmap reviews with executive stakeholders and published the trade-offs openly. » Prioritised a backlog for 4 engineers, delivering 8 releases per quarter. » Defined north-star metrics and instrumented them across 50 delivery squads.
2011-03 — 2016-02	Product Manager Cloudflare » Ran discovery interviews with 6 customers, reshaping the following year's roadmap. » Introduced accessibility standards to the design process, taking 40 flows to WCAG AA. » Prototyped 5 concepts in React and killed two early on evidence rather than opinion. » Partnered with data to define activation and retention definitions the whole company now uses.

QUALIFICATIONS

Master, Information Systems

KTH Royal Institute of Technology | 2007 — 2009

Thesis: "Adoption barriers for self-service analytics"

Bachelor, Information Systems

Ellsworth State University | 2004 — 2007
