PROFESSIONAL SUMMARY

Early-career Data Scientist with 1 year in Data/AI/ML. Strongest in Scikit-learn; currently deepening my TensorFlow experience through production work rather than tutorials.

EDUCATION & QUALIFICATIONS

High School

South Andrewsides High School | 2020 — 2023

CAREER HISTORY

Data Scientist, Vantage Analytics

2025-01 — Present | Lowecheester (On-site)

- Built the feature store that 40 downstream models now read from, ending duplicated feature logic.
- Wrote the team's model documentation and review standard, now required before any production launch.
- Reduced label noise by redesigning the annotation guidelines, improving validation accuracy by 20%.

TECHNICAL SKILLS

Scikit-learn, TensorFlow, Databricks, Pandas, Looker, AWS, Postman

PROJECTS

Charity chatbot

Built a TensorFlow assistant for a local charity to answer volunteer questions; retired it once they moved to a supported platform.

Match-day predictor

Small model in TensorFlow predicting league results. Beats the naive baseline; still loses to the bookmakers.

Home energy dashboard

Collects meter readings and renders them with Scikit-learn. Mostly an excuse to learn time-series storage properly.
