Professional Summary

Junior Software Engineer with 1 year of commercial experience across Software Development. I learn fast, ask a lot of questions, and care about leaving code clearer than I found it. Core tools: Redis, Go.

Education

Bachelor, Data Science

Thornfield University | 2019 – 2023

Relevant coursework: Bayesian Inference, Experimental Design, Statistical Learning, Natural Language Processing

Technical Skills

Redis (1 year), Go (1 year), PostgreSQL (1 year), Next.js (1 year), Pandas (1 year), React (1 year), Scala (1 year)

Employment History

Junior Software Engineer

Snowflake | Jan 2025 – Present | New Sarahmouth

- Set the service-level objectives for 3 services and built the dashboards the team still runs on.
- Mentored 50 junior engineers, ran weekly design reviews, and authored the team's onboarding guide.
- Drove the team's adoption of trunk-based development, reducing merge conflicts and lead time by 35%.

Side Projects

Charity chatbot

Built a Go assistant for a local charity to answer volunteer questions; retired it once they moved to a supported platform.

Personal finance tracker

Self-hosted spend tracker built with React. Deliberately kept the data local rather than using a hosted service.

Home energy dashboard

Collects meter readings and renders them with Next.js. Mostly an excuse to learn time-series storage properly.

Languages

English – Native

Personal Interests

Woodworking, Cycling, Five-a-side football
