Skills & Tools

Languages: Go, Scala

Frameworks: Spring Boot

Cloud & DevOps: Docker, Ansible,
CI/CD, Jenkins

Data: Kafka

James Jones

Site Reliability Engineer

Personal Statement

Site Reliability Engineer with 8 years in DevOps/Infrastructure, currently at Ironwood Labs. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in Kafka, Docker and Ansible.

Experience

Site Reliability Engineer

Ironwood Labs | 2019–2026 | Haydenhaven

- Reduced incident MTTR from 6 hours to under 45 minutes with better alert routing and runbooks.
- Led the Kubernetes upgrade across 10 clusters with zero customer-visible downtime.
- Hardened Jenkins environments ahead of SOC 2, closing 10 critical findings.
- Introduced infrastructure-as-code with CI/CD, eliminating manual provisioning entirely.

Site Reliability Engineer, IBM

2018–2019 | Kristinshire (On-site)

- Wrote the platform team's paved-road documentation, cutting onboarding from weeks to days.
- Built CI/CD pipelines with Docker, bringing mean time to deploy under 5 minutes.
- Ran the on-call rotation for 10 production services, sustaining 99.9% availability.

Junior Infrastructure Engineer

Oracle | 2016–2018 | Waltonhaven (On-site)

- Built observability on Jenkins so teams could self-serve dashboards instead of filing tickets.
- Automated 8 manual runbooks, saving an estimated 30 engineer-hours per month.

Education and Training

Bachelor, Biology

Oakmere University | 2012–2016
