

Walter Rosario

Site Reliability Engineer

About Me

Early-career Site Reliability Engineer with 2 years in DevOps/Infrastructure. Strongest in GitHub Actions; currently deepening my Python experience through production work rather than tutorials.

Relevant Experience

Site Reliability Engineer, Stonebridge IT

09/2024 - Present

- Hardened Docker environments ahead of SOC 2, closing 4 critical findings.
- Migrated 6 services to Terraform, cutting monthly infrastructure spend by 70%.
- Introduced infrastructure-as-code with GitHub Actions, eliminating manual provisioning entirely.

Education & Qualifications

High School

West Cassidy High School | 2020 - 2024

Projects

Technical blog

Writing up Docker experiments and failures, roughly 7k readers a month.

Home energy dashboard

Collects meter readings and renders them with Terraform. Mostly an excuse to learn time-series storage properly.

Commute optimiser

Pulls transit APIs and suggests departure times, built on Terraform.

Certifications

Professional Scrum Master I (PSM I) — Scrum.org, 2016

Databricks Certified Data Engineer Associate — Databricks, 2023

Community

STEM ambassador running school workshops twice a term.
