## Personal Statement

Early-career Junior Platform Engineer with 2 years in Software Development. Strongest in Python; currently deepening my Go experience through production work rather than tutorials.

## Qualifications

---

### PhD, Software Engineering

Braxton University | 2022

Graduated with Distinction

Thesis: “Contract testing between independently deployed services”

Relevant coursework: Agile Delivery, Testing, Software Architecture, Human-Computer Interaction

### Bachelor, Software Engineering

Ashford Technical University | 2018

## Professional Experience

---

### Clearwater Systems — Junior Platform Engineer

Dec 2023 – Aug 2026

- Mentored 50 junior engineers, ran weekly design reviews, and authored the team's onboarding guide.
- Led the migration of a legacy monolith to React, taking deployments from fortnightly to 3 per day.
- Introduced contract testing with Python, lifting coverage from 20% to 96% and cutting integration bugs.
- Refactored the billing module behind a feature flag, eliminating 25% of recurring production incidents.

## Skills

---

Python (2 yrs), Go (2 yrs), React (1 year), GraphQL (1 year), TensorFlow (1 year), Terraform (1 year), Git (2 yrs)

## Notable Projects

---

### Personal finance tracker

Self-hosted spend tracker built with Go. Deliberately kept the data local rather than using a hosted service.

### Technical blog

Writing up Go experiments and failures, roughly 3k readers a month.

### Commute optimiser

Pulls transit APIs and suggests departure times, built on TensorFlow.

## Personal Interests

Open-source contribution, Jazz guitar, Five-a-side football, Urban sketching
