About Me

MLOps Engineer with 3 years in Data/AI/ML, focused on AWS and PyTorch. Comfortable owning a feature from discovery through to production support.

Professional Experience

March 2025 to May 2026	MLOps Engineer SAP » Lifted recommendation click-through by 12% through feature engineering and retraining cadence in PyTorch. » Ran A/B tests across 8 model variants; the winning variant added an estimated \$80k in annual revenue. » Built the feature store that 4 downstream models now read from, ending duplicated feature logic. » Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders.
September 2022 to October 2024	Junior Applied Scientist Ironwood Labs » Reduced label noise by redesigning the annotation guidelines, improving validation accuracy by 70%. » Established offline/online evaluation parity, catching 3 silent regressions before release. » Trained and deployed LangChain models serving 3M predictions per day at under 180ms p95.
