Personal Statement

Recent graduate moving into Data Analysis. Most of my practical experience is self-directed - personal projects in BigQuery and Redshift - and I'm looking for a team to learn production engineering with.

Professional Experience

Seeking a first professional role; see projects below.

Education & Qualifications

Master, Biology

Universidad Politecnica de Madrid | 2025 to 2026

Relevant coursework: Genetics, Bioinformatics, Biostatistics, Cell Biology

Bachelor, Biology

Vernon Hills University | 2020 to 2024

Technologies

BigQuery (1 year), Redshift (1 year), Django (1 year), Kafka (1 year)

Projects

Personal finance tracker

Self-hosted spend tracker built with Django. Deliberately kept the data local rather than using a hosted service.

Match-day predictor

Small model in Django predicting league results. Beats the naive baseline; still loses to the bookmakers.

BigQuery utility library

Open-source helper library for BigQuery, ~300 GitHub stars. Wrote the docs and handled issue triage.

Volunteering

Maintainer of a small open-source Django library used by a handful of teams.

Languages

English – Bilingual

Dutch – Professional working proficiency

Polish – Intermediate (B1)
