About Me

Data Analysis specialist with 7 years+ building and shipping production systems. Deep hands-on experience with Spark, Python and Snowflake, most recently at Keystone Apps.

Employment History

Keystone Apps — Business Intelligence Analyst

March 2024 to Current

- Migrated reporting from spreadsheets to Spark, giving one trusted source of numbers.
- Partnered with engineering to fix event tracking, recovering 70% of previously lost sessions.
- Ran cohort analysis that reframed how the business measures activation.
- Defined and documented 50 core business metrics in the semantic layer, ending duplicate definitions.

Cobalt Systems — Business Intelligence Analyst

October 2020 to December 2023

- Trained 6 non-technical colleagues to self-serve, cutting ad-hoc request volume by 18%.
- Analysed churn drivers and informed retention work that reduced churn by 45%.
- Built the reporting suite dashboards used daily by 8 stakeholders across three departments.

Spotify — Analytics Engineer

April 2019 to September 2020

- Consolidated 8 legacy reports into 12 maintained dashboards.
- Built data quality tests in Spark that catch upstream breakages before stakeholders see them.

Qualifications

High School

Petersonberg High School | 2016 to 2019

Skills & Tools

Skill	Experience
Spark	1 year
Python	3 yrs
Snowflake	7 yrs
dbt	7 yrs
Django	1 year
Redis	3 yrs
Next.js	5 yrs

Side Projects

Technical blog

Writing up dbt experiments and failures, roughly 7k readers a month.

dbt utility library

Open-source helper library for dbt, ~500 GitHub stars. Wrote the docs and handled issue triage.

Certifications

Google Analytics Certification — Google, 2022

Personal Interests

Volunteering at a local coding club, Bouldering, Board games
