

Joseph Perry

CAREER OBJECTIVE

Insights Analyst with 23 years in Data Analysis, currently at IBM. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in Airflow, Looker and Redshift.

PROFESSIONAL EXPERIENCE

IBM — Insights Analyst

Sep 2008 – Now

- Analysed churn drivers and informed retention work that reduced churn by 25%.
- Rebuilt the finance forecast with the FP&A; team, improving accuracy by 45%.
- Automated monthly reporting with dbt, saving 6 analyst-hours per cycle.
- Defined and documented 3 core business metrics in the semantic layer, ending duplicate definitions.
- Modelled pricing scenarios in Snowflake, supporting a 45% margin improvement.

Stonebridge IT — Insights Analyst

Feb 2005 – Jul 2008

- Partnered with engineering to fix event tracking, recovering 18% of previously lost sessions.
- Built data quality tests in Airflow that catch upstream breakages before stakeholders see them.
- Consolidated 20 legacy reports into 5 maintained dashboards.
- Ran cohort analysis that reframed how the business measures activation.

Nova Tech Group — Data Engineer

Apr 2003 – Nov 2004

- Designed the experiment readouts template now used company-wide.
- Built Looker dashboards used daily by 15 stakeholders across three departments.
- Migrated reporting from spreadsheets to Redshift, giving one trusted source of numbers.

Meridian Software — Insights Analyst

Apr 2002 – Nov 2002

- Presented findings to the executive team monthly, translating analysis into concrete decisions.
- Trained 6 non-technical colleagues to self-serve, cutting ad-hoc request volume by 12%.
- Took over an unowned service, documented it and brought it back under SLO.

EDUCATION & QUALIFICATIONS

PhD, Economics

Sandalwood University | 1998 – 2001

Thesis: "Labour mobility and remote work adoption"

Bachelor, Economics

Sandalwood University | 1998

TECHNICAL SKILLS

Airflow

Looker

Redshift	
NumPy	
BigQuery	
Pandas	
dbt	
SQL	
PostgreSQL	
Excel	
Python	
Snowflake	
Elasticsearch	
Node.js	
Ruby	
Kubernetes	

NOTABLE PROJECTS

Recipe search engine

Full-text search over a scraped recipe corpus using Pandas; learned more about ranking than about cooking.

Home energy dashboard

Collects meter readings and renders them with Airflow. Mostly an excuse to learn time-series storage properly.

LICENCES & CERTIFICATIONS

Databricks Certified Data Engineer Associate — Databricks, 2025
