Personal Statement

Senior Software Engineer with 16 years in Software Development, currently at Foxglove Media. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in Java, JavaScript and pytest.

Key Achievements

- » Drove the team's adoption of trunk-based development, reducing merge conflicts and lead time by 15%.
- » Introduced contract testing with Java, lifting coverage from 20% to 85% and cutting integration bugs.
- » Built a reusable FastAPI component library adopted by 8 product teams, removing months of duplicated work.

Education & Qualifications

Master, Communications

Delft University of Technology | 2008 – 2009

Bachelor, Communications

Halloway Institute of Technology | 2008

Experience

Senior Software Engineer, Foxglove Media

Feb 2021 – Aug 2026

- » Replaced a third-party dependency with an in-house FastAPI module, saving \$12k per year in licence fees.
- » Owned the customer-facing API end to end on gRPC, from schema design through on-call support.
- » Rewrote the search path in Go, dropping median response from 600ms to 60ms for 2M monthly users.
- » Partnered with product to scope and deliver 30 major releases, each behind staged rollouts.
- » Set the service-level objectives for 15 services and built the dashboards the team still runs on.

Summit Digital — Software Engineer

Sep 2015 – Jan 2021

- » Cut CI build times by 25% by parallelising the Docker pipeline and caching dependency layers.
- » Led the migration of a legacy monolith to Java, taking deployments from fortnightly to 20 per day.
- » Designed and shipped Spring Boot services handling 30k requests per minute, cutting p99 latency from 780ms to 180ms.
- » Mentored 2 junior engineers, ran weekly design reviews, and authored the team's onboarding guide.

Adobe — Full-Stack Developer

Feb 2011 – Jul 2015

- » Refactored the billing module behind a feature flag, eliminating 25% of recurring production incidents.
- » Hardened authentication flows in Go after a security review, closing 10 findings before audit.
- » Represented the team in cross-functional planning with product, design and support.

Mobile Engineer

BrightPath Solutions | Feb 2010 – Sep 2010

- » Standardised the team's tooling with Docker, ending long-running environment drift.
- » Managed stakeholder communication during a major incident, including the post-mortem.
- » Led a team of 4 through a full replatforming with no missed delivery dates.

Junior Platform Engineer, Adobe

Mar 2009 – Sep 2009

- » Reduced technical debt on a legacy component that had blocked 30 previous attempts.
- » Ran retrospectives and drove the follow-up actions to completion, not just to the board.
- » Interviewed and onboarded 6 new hires, shaping the hiring bar for the team.

Technologies

- » Java
- » JavaScript
- » pytest
- » FastAPI

- » Spring Boot
- » Vue.js
- » Docker
- » Redis
- » Go
- » gRPC
- » Scikit-learn
- » MLflow
- » dbt
- » Airflow

Certificates

Databricks Certified Data Engineer Associate — Databricks, 2016

HashiCorp Certified: Terraform Associate — HashiCorp, 2016

AWS Certified Developer - Associate — Amazon Web Services, 2026
