

Joseph Martinez

rclark@example.org – 725-645-0809 – Port Matthewfurt

Career Objective

Early-career Junior Product Manager with 1 year in Product/Design. Strongest in Git; currently deepening my Tableau experience through production work rather than tutorials.

Qualifications

Master, Computer Science

Stanford University | 2022 – 2024

Magna Cum Laude

Thesis: "Scheduling strategies for distributed task queues"

Relevant coursework: Databases, Computer Networks, Distributed Systems, Operating Systems

Bachelor, Computer Science

Pinehurst University | 2019 – 2022

Professional Experience

Junior Product Manager, Salesforce

Oct 2024 – Now | Brianview

- Wrote the PRDs and acceptance criteria for a platform migration affecting 8k users.
- Reduced support contacts by 70% by reworking the checkout and error states.
- Ran quarterly roadmap reviews with executive stakeholders and published the trade-offs openly.

Tech Stack

Languages: Kotlin

Frameworks: React

Data: Airflow

Analytics & Design: Tableau

Testing & Tooling: Git, Jira, Confluence, GraphQL

Projects

Home energy dashboard

Collects meter readings and renders them with Tableau. Mostly an excuse to learn time-series storage properly.

Commute optimiser

Pulls transit APIs and suggests departure times, built on Jira.

Technical blog

Writing up Tableau experiments and failures, roughly 9k readers a month.

Language Skills

English – Fluent
