Personal Statement

Pragmatic UX Designer (3 years in Product/Design). I enjoy untangling messy systems and leaving them simpler than I found them. Day to day that means TypeScript, Figma and a lot of conversations with the people who use what we build.

Employment History

Nov 2024 – Current	UX Designer Meridian Software - Ran discovery interviews with 4 customers, reshaping the following year's roadmap. - Prototyped 50 concepts in Figma and killed two early on evidence rather than opinion. - Redesigned onboarding in Sketch, lifting activation from 40% to 96%. - Shipped a design system in Sketch adopted across 40 product surfaces.
Dec 2022 – Aug 2024	Junior Product Designer Keystone Apps - Ran quarterly roadmap reviews with executive stakeholders and published the trade-offs openly. - Built the experimentation framework the team uses to size bets before committing. - Defined north-star metrics and instrumented them across 8 delivery squads.

Academic Background

Master, Physics

Fairview Institute of Technology | 2019 – 2021

Bachelor, Communications

Braxton University | 2018

Technical Skills

TypeScript	
Figma	
Excel	
Git	
Sketch	
Python	
Redis	
Redshift	

Notable Projects

Match-day predictor

Small model in Redshift predicting league results. Beats the naive baseline; still loses to the bookmakers.

Conference talk

Spoke on Sketch in production at a regional meetup, ~20 attendees.
