Professional Profile

Pragmatic Data Scientist (4 years in Data/AI/ML). I enjoy untangling messy systems and leaving them simpler than I found them. Day to day that means Python, Databricks and a lot of conversations with the people who use what we build.

Relevant Experience

Data Scientist

Spotify | Nov 2023 – May 2026

- Migrated ad-hoc notebooks into versioned NumPy pipelines with reproducible runs and tracked experiments.
- Cut inference cost by 45% through quantisation, batching and autoscaling on GitHub Actions.
- Established offline/online evaluation parity, catching 20 silent regressions before release.
- Developed an NLP classification system in Databricks reaching 88% F1, replacing a manual review queue.

Junior MLOps Engineer, Datadog

Oct 2021 – Aug 2023

- Built the feature store that 15 downstream models now read from, ending duplicated feature logic.
- Lifted recommendation click-through by 12% through feature engineering and retraining cadence in NumPy.
- Productionised demand forecasting models that reduced stock-outs by 55% across 3 regions.

Education

Bachelor, Software Engineering

University of Texas at Austin | 2017 – 2021

Key Skills

Python	
Databricks	
NumPy	
Airflow	
GitHub Actions	
Cypress	
Java	

Certifications

Azure Fundamentals (AZ-900) — Microsoft, 2019

AWS Certified Developer - Associate — Amazon Web Services, 2020

Honours & Awards

Peer Recognition Award, 2022

Graduated with Distinction, 2020
