

Bruce Edwards

PERSONAL STATEMENT

DevOps/Infrastructure graduate looking for a first role. Picked up Jenkins and Nginx through coursework and side projects rather than commercial work, and I'd like to learn the rest somewhere that reviews code properly.

EDUCATION

Bachelor, Mathematics

Braxton University | 2024

WORK EXPERIENCE

Seeking a first professional role; see projects below.

SELECTED PROJECTS

Nginx utility library

Open-source helper library for Nginx, ~600 GitHub stars. Wrote the docs and handled issue triage.

Personal finance tracker

Self-hosted spend tracker built with Redshift. Deliberately kept the data local rather than using a hosted service.

Home energy dashboard

Collects meter readings and renders them with Databricks. Mostly an excuse to learn time-series storage properly.
